It's true. Short, inexpensive videos like these can not only add to your bottom line, they can also be the difference between a thriving, expanding local business, and one that's barely hanging on for dear life.

You may find this hard to believe, but just read the rest of this brief article, and you'll see exactly what I'm talking about.

If you own a small business you are in a war for Internet Domination with every single one of your local competitors, whether you know it or not.

Why is that?

Because the Internet is rapidly replacing the Yellow Pages when it comes to how consumers look up local businesses.

Actually, I need to rephrase that – Google, Google Video and YouTube are rapidly replacing the phone book when it comes to how consumers look up local businesses.

The image shows a screenshot of a Google Video search results page for the query "boston hair salon". The search results are sorted by relevance and show several video thumbnails with titles and durations. A red box highlights the first result, "Jimi James Salon Boston Hair Salon and Coloring", with a red arrow pointing to it. To the right of the search results is a large advertisement with the text: "We Get Your Business To The Top of Google Video!", "Where Is Your Business Ranked Right Now?", "Want To Be Ranked At The Top?", and "Contact Us Right Away!". A small graphic of a television set with "Local Biz Vids" on the screen is also present in the advertisement.

Because, while there are hundreds of search engines and video sites out there, Google and YouTube are by far the big dogs, serving over 85 percent of all searches in the United States and showing over 25,000,000 videos a day!

What does that mean for you and your local business?

Simple – if you want to survive and thrive over the coming years and decades, not to mention in today's challenging economic environment, you've simply got to show up at the top of Google,

Google Video and YouTube when people search for local results in your business category.

There are people in your area looking for a business like yours on Google, Google Video and YouTube.

Where is your business located?

The screenshot shows a YouTube search for "boston hair salon" with 1-20 of about 980 results. The search filters are set to "Videos" and "Relevance". Three video results are displayed:

- Jimi James Salon Boston Hair Salon and Coloring**: Added 3 months ago, 694 views, 5 stars, 00:30 duration. Description: "color - Fun and funky Hair Salon located just minutes from Boston... hair salon coloring haircare stylists salons ... (more)".

Our Clients Businesses Are Ranked At The Top and Are Enjoying More Visibility, More Local Visitors and More Profits!

If your business is not near the top of Google or YouTube you should plan on your sales declining year after year in the very near future.

Count on it.

The businesses that continue to grow and prosper in the coming years will be those that show up in the top few results of Google or YouTube searches.

This may strike you as unfair, especially if you've done well with just advertising in your local Yellow Pages. And it certainly does come as a shock to many local business owners.

But it doesn't matter whether it's "fair" or if it's not the way you're used to doing things in the past. All that matters is that this is reality. Those who face the new reality and adapt will do well. Those who don't will probably go under, or face drastically lower profits.

There's No Need To Panic!

Getting your business to rank high on Google and YouTube is a science, and LocalBizVids.com has mastered that science.

We know all the strategies and tweaks to get Google and YouTube to rank your business on the very first page of the results, and that's going to give you more visibility, more visitors to your website and more customers coming through your doors or calling to make an appointment.

And guess what? It's extremely easy to get started, and it isn't going to cost you an arm and a leg.
